

VILDAN KARA KAYACAN

Business, Technology & AI Transformation Executive

Transformation Director · Managed Services · SAP & Enterprise Architecture · AI Transformation

Istanbul, Türkiye | +90 553 296 55 75 | Vildan.Kara@gmail.com

EXECUTIVE PROFILE

Business and technology transformation executive with 20+ years leading large-scale change, managed services, and global delivery for strategic enterprises across EMEA and META. Repeated record of doubling service portfolios, reducing operating costs by a third, and standing up multi-country delivery organizations from the ground up. Sits at the rare intersection of enterprise SAP transformation and hands-on AI, leading both the technology and the organizational transformation behind AI adoption. A trusted advisor to CIOs and executive teams turning transformation strategy into measurable business value.

SIGNATURE ACHIEVEMENTS

- **Established Türkiye's first SAP global support hub (100+ FTE)**, consolidating worldwide service delivery for a global automotive enterprise.
- **Cut operating costs 35%** across global service operations while improving service quality and delivery efficiency.
- **Built a 75+ person regional IT service organization in three months**, meeting demanding SLAs from day one.
- **Led Türkiye's first SAP HANA program in financial services** as a sector reference implementation.
- **Doubled the managed services portfolio**, driving significant recurring-revenue growth across strategic enterprise accounts.
- **Delivered €1M+ transformation programs** consistently on time and on budget, with stable, reliable go-lives.
- **Built an AI-powered project management system**, applying generative AI and automation to planning, delivery, and reporting.

PROFESSIONAL EXPERIENCE

NTT DATA Business Solutions

Nov 2014 – Present

Progressive leadership across service strategy, global delivery, and program management for large enterprises in EMEA & META.

Director, Service Sales & Delivery Strategy

- Led complex, multi-million-euro RFP and RFI pursuits end to end — owning win strategy, proposal development, solution design, bid governance, risk and pricing, and final-stage negotiations for strategic IT and managed-services deals.
- Shaped commercial strategy for multi-year engagements — pricing frameworks, financial modeling, cost-to-serve structures, and contract design — balancing margin protection with competitive positioning.
- Set service strategy and target operating models for managed services and large-scale transformation programs, ensuring stability, reliability, and continuous improvement across major accounts.
- Built governance structures — performance management, SLA/KPI models, financial controls, and quality assurance — across multi-region delivery teams.

Director, Global Services Business Integration & Development

- Led service integration and expansion across EMEA and META, scaling delivery centers and mentoring senior leaders to drive innovation, accountability, and execution.

- Introduced new commercial architectures that strengthened market positioning and go-to-market readiness.
- Directed strategic transitions from global to local delivery and from external providers to in-house Centers of Excellence, protecting operational excellence and compliance.

Head of Project Management & Customer Engagement Office (PMO)

- Built and led the PMO, directing a team of project managers and standardizing delivery methodology across the portfolio.
- Served as Program / Transformation Lead on priority programs while establishing governance frameworks and performance management across delivery teams.

Regional IT Service Delivery Lead — *B/S/H (Bosch-Siemens Home Appliances)*

- Stood up a 75+ person IT service organization within three months, meeting stringent SLAs with high customer satisfaction.
- Directed end-to-end service transition: onboarding, capability build, and people management.
- Owned budget and P&L under a complex contractual framework, consistently meeting financial and operational targets.
- Led an enterprise RPA automation program, applying intelligent automation to streamline operations and lift service efficiency.

Senior Service Manager — *Daimler Regional CoE Delivery Center*

- Established a 100+ FTE SAP global support hub across multiple countries, centralizing operations for Daimler subsidiaries worldwide.

SAP Türkiye

May 2011 – Oct 2014

Senior Business Transformation Project Manager

- Led SAP S/4HANA transformation programs for industry-leading enterprises across manufacturing, automotive, financial services, and aviation.
- Designed target operating models, governance frameworks, and transformation roadmaps in partnership with CIOs and senior IT leaders.

Selected programs:

- **Turkish Airlines (THY)** — Organizational Change Management Lead on the country's largest ERP transformation (~150 global team members).
- **Eureko Sigorta** — Program Manager for the financial-services sector's first SAP HANA reference implementation (22-person team).
- **Arçelik** — Program Manager for one of the most comprehensive Master Data Management implementations, strengthening master-data architecture and governance (12-person team).

Metro Group Information AG — Düsseldorf, Germany

Oct 2005 – Apr 2011

Senior Financials Consultant & Developer

- Progressed from ABAP development and SAP Basis into finance consulting, delivering international SAP roll-outs across Egypt, Kazakhstan, Slovakia, Türkiye, Belgium, Spain, Bulgaria, and Pakistan.

EDUCATION

B.Sc., Business Information Systems (Wirtschaftsinformatik)

2000 – 2005

Marmara University — German-medium program
